Home made syrups

Did you know we make our own syrups?

Every little detail can make a huge difference, this is why paying attention to the details is our first priority.

Zero20 is known by the locals for making its own syrups. This may vary from a simple sugar syrup, to an apple cinnamon or a spicy mango mixture. We are proud of ourselves for reinventing and continuously experimenting with new flavors. The best new mixture becomes the cocktail of the week.

Why home made syrups?

- This is to ensure that even classic cocktails will be a new experience when you pay us a visit.
- The fact that we make our own syrups means that we are able to be innovative with an ever changing menu.
- It might not sound that important but in a cocktail with four ingredients it will make a significant difference for your taste buds.
- Every Monday we have a new Cocktail Of The Week, so you will have the chance to taste something different with premium ingredients.

Are you ready to try our cocktail of the week?

Sometimes its a classic with a twist. Zero20 uses the most prestigious ingredients, we do this so you are able to try something you have never tasted before.

In other words this might be your only chance to get your hands on the unique concoction of the moment.
